Senior Product Designer | UX & Interaction Design | Mobile & SaaS

Senior Product Designer with 10+ years of experience designing and scaling mobile and SaaS products with a combined reach of ~4.8M cumulative downloads and ~850K monthly active users. Background in software engineering, specializing in complex systems, design systems, and data-driven UX that improves adoption, efficiency, and revenue outcomes.

SELECTED PRODUCT HIGHLIGHTS

- **Designed 3 iOS apps** that ranked **Top 10 in Photography & Video categories** on the App Store, sustaining rankings for **2–5 years** and generating **~3.1M total downloads**.
- **Led UX for a LiDAR-powered SaaS platform** adopted by **200+ real estate and architecture firms**, supporting **10K+ spatial scans per month** for automated floor-plan generation and data extraction.
- **Built scalable design systems** that reduced design-to-development rework and shortened release cycles by **15% (~2 weeks per major release)** across mobile and web products.

WORK EXPERIENCE

Technical UX Designer

Inside Maps Inc. • Redwood City, CA • 03/2021 – 12/2021

- Led end-to-end UX for LiDAR-based scanning workflows, enabling automated floor-plan generation and spatial data extraction used in production by enterprise customers.
- Designed cross-platform workflows used across real estate, property management, and architectural visualization products, supporting both field operators and internal processing teams.
- Partnered closely with engineering and ML teams to translate complex spatial data, point clouds, and system constraints into intuitive, task-focused user experiences.
- Redesigned scanning and review workflows, increasing **task success rates by 35%**, improving data-processing throughput by ~30%, and contributing to **\$1.5M+** in projected annual cost savings through operational efficiency.

Lead UX Designer

Kite Games Studio Ltd. • Dhaka, BD • 01/2016 – 08/2023

- Led product design for 20+ iOS and Android apps, with flagship products generating ~4.8M cumulative downloads and serving a global user base.
- Designed 3 App Store Top-Chart apps that sustained Top 10 rankings for 2–5 years in their respective categories, driving long-term organic acquisition.
- Owned UX strategy, interaction design, and visual systems from concept through launch, collaborating with product, engineering, and marketing teams.

- Built and scaled **design systems** that reduced UI inconsistencies and increased release velocity by 15% (**≈1 fewer sprint per major release**) across multiple product lines.
- Managed and mentored a team of 12+ **designers**, establishing structured design reviews, shared component libraries, and agile-aligned workflows supporting 5+ **parallel product teams**.
- Drove UX improvements that increased **daily active users (DAU)** by 56% across two flagship apps (~800K MAU) through onboarding optimization, feature discoverability, and performance-aware UI design.

Product Designer

ASI, California State University, East Bay • Hayward, CA • 12/2023 – Present

- Partner with communications, leadership, and campus stakeholders to design **student-facing digital experiences** aligned with ASI's brand, accessibility standards, and engagement goals.
- Designed campaigns and visual systems that increased **student interaction by 16%**, measured through event participation and digital touchpoint engagement.
- Applied UX principles to improve **accessibility, clarity, and consistency** across print and digital materials used by thousands of students annually.

UX Researcher

Dcastalia Ltd. • Dhaka, BD • 01/2015 – 12/2015

- Conducted user interviews, usability testing, and heuristic evaluations for enterprise and real-estate platforms.
- Translated research findings into improved task flows and IA, increasing **System Usability Scale (SUS)** scores by 23% across tested products.

EDUCATION

M.A. in Interaction Design and Interactive Art (2025)

California State University, East Bay (CSUEB)

Bachelor of Science in Software Engineering (2015)

American International University Bangladesh (AIUB)

CERTIFICATIONS

Google UX Design Professional Certificate, Coursera, Google

Social & Behavioral Research, Citi Program

SKILLS

Design & UX

- Product Design, UX Design, UI Design, Interaction Design, Design Systems, Information Architecture, Wireframing, Prototyping, Usability Testing, User Research

Tools

- Figma, Sketch, Adobe CC (Photoshop, Illustrator, XD), InVision, Jira, Trello

Technical

- HTML, CSS, JavaScript, Agile / Scrum, Cross-functional Collaboration
